

1. Download the “HelloCS210.java” file, modify it so that it will output

Hello CS 210, my name is **FirstName LastName**.

where **FirstName** is your first name, **LastName** is your last name. (For example: I should output the following: Hello CS 210, my name is Winnie Li).

2. Submit the final **HelloCS210.java** file online. (DO NOT change the file name)
3. Print the output of the code (screenshot), which should include your code and the output screen. Then, insert it into a Word document. See example below:

4. Name the file as “**LastnameFirstname0.doc**” (or “.docx” or “.pdf”, where “Lastname” is your last name, and “Firstname” is your first name), submit it online.
